TWO DAY EXAM REVIEW WORKSHOP
CERTIFIED PROFESSIONAL CODER (CPC)

Training Agenda

Top CPC Exam Mistakes: We'll provide a detailed review and analysis of commonly missed questions with examples that relate directly to the CPC exam from 2017 data. NTI Instructor Hilari Simmons is a PMCC CPC-Instructor certified and experienced with AAPC curriculum and content. She attends the Train the Trainer workshops regularly.

Question and answer analysis: Hilari will show you how to analyze a question and the answers for each question so that you can quickly eliminate the wrong answers and focus on choosing the correct answer - EVERY TIME.

Pace Yourself: Hilari will show you a proven method of timing and pacing yourself during the exam so that you don't run out of time. Running out of time is one of the top reasons why candidates fail the exam.

Manuals: Learn some easy wins on how and why to note your manuals appropriately and know how and where to find the appropriate guidelines.

Practice, Practice, Practice: We'll review practice questions with feedback on the correct answers and how to mark and notate your manuals so that if you see a similar question in the future, you'll know how to answer it.

Frequently Asked Questions to be addressed:

1. What materials / books can I bring to the exam?
2. How do I avoid running out of time during the test?
3. What should I do if I don't know the answer to a question?
4. Should I start with question 1 or should I skip around?
5. How should I organize any unanswered questions?
6. What are the top mistakes people make, and how can I avoid them?
7. How many practice exams should I take?
8. Should I guess if I don't know the answer to a question?
9. What should I expect on the day of the exam?
10. Should I take breaks during the exam?
11. How is the test graded when can I expect the results?
12. *And More!*
